LEADERSHIP SKILLS FOR LAW ENFORCEMENT

Hosted By: Arapahoe County Sheriff's Office

Why do you need leadership training?

Many would argue that the best leaders are born. While you can be born with some leadership traits, the best leaders build upon those traits by challenging themselves and building their knowledge base.

How is this training different?

We believe that the best leaders use empathy when making decisions. Those leaders implement a culture of accountability that allows everyone in the chain of command to be held responsible for their actions and decisions. Our program will help you improve the skills you have as well as introduce new skills that will help you lead with empathy and always make the right decisions.

Who should attend?

This training is geared towards all current and future supervisors. Command level leaders are also encouraged to attend.

Who are we?

Lyons Hale, an active police commander and crisis negotiator, and Dr. Jacque Phillips, DNP, RN, an expert on emotional intelligence, founded Juliet Lima Solutions to help law enforcement officers improve their communication skills, de-escalate volatile situations, and be more effective public servants.

When: December 5, 2023
